

## NOTICE

**Construction in your neighborhood will be starting soon!**

**Ashland - Mateo Property Demolition Project  
March 7, 2023**

### Overview:

The Hayward Area Recreation & Park District (HARD) is partnering with Trust for Public Land in developing a future park at 16037-16097 Mateo Street. This project is made possible through Proposition 68 Statewide Park Program Grant and HARD Measure F1 Bond.

The project's first step is the demolition of the existing seven buildings on the property. This demolition work is scheduled for March 2023 to April 2023. And the awarded contractor is Garrison Demolition Engineering.

Working hours will be from 7:30 a.m. to 5:00 p.m., Monday through Friday excluding holidays.

For any concerns on the demolition activities, please contact the project manager representing Garrison Demolition Engineering, Inc. Aaron Drum at (925) 242-2133

For all project concerns, please contact Hai-Ping Mo, HARD Bond Project Manager - [moha@haywardrec.org](mailto:moha@haywardrec.org)

The planning and design for the park development is currently underway. The actual park construction will start in 2025 and complete in 2026. The future park will provide trees and green space, demonstration gardens, terrace seating, gathering areas, quiet space for outdoor study, a pathway loop, play areas, multipurpose court, workout stations, and security lighting.
